a
Prodigal gene, bacterial hit (n=12,834)
candidate, bacterial hit (n=5,133)
candidate, other hit (n=2,782)
candidate, no hit (n=11,111)
low-score intergenic (n=19,141)
Density
Prodigal coding score (best start)
b
Density
Prodigal total score (best start)
c
Density
ORF GC − Prodigal model GC
d
positive, not called
start penalties
negative coding
no potential gene
candidate, bacterial hit
candidate, other hit
candidate, no hit
low-score intergenic
why Prodigal did not call the ORF
